

This is an Invitation to explore a membership in "Gyro". Gyro is a men's friendship club. Our unique appeal is that we are simply a "Fraternity of Friendship". We are not a service club. We are totally focused on building a network of friendships and the fun that can be found when good friends get together. Social scientists have proven over and over again that those with a wide social circle live happier, healthier and longer lives just by sharing life experiences, activities, and those other things that come with friendship. Why don't you investigate our club, share some time and have some fun?

What do Gyro members do? Most clubs meet regularly at least twice monthly for dinner or drinks. There is no mandatory attendance. Just come as often as you wish. Outside these gatherings, smaller groups may get together for activities like golf, cards or sports events. The fun begins when you join a meeting. We also host mixed social events throughout the year where spouses can join in on the Gyro fun.

If you have never heard of us ...Gyro is not well known because we have a low social profile but as such, we have been a thriving organization for well over a hundred years with clubs spread across North America. In addition to local meetings, some of us attend out of town conventions offering the opportunity to build friends beyond our community.

Why is it called "Gyro"? It is named after a navigational device called a gyroscope. It is useful in maintaining orientation. The name represents what this club offers. Men are often in need of social balance in their lives and friendship is often the only thing that is impervious to the events that happen in our world.

Our History .. We began out of a friendship of 3 university men in 1912. The gatherings spread across North America quickly because men found a singular, life enhancing ingredient called "friendship".

You are always welcome as a guest of a member.

This may be just the thing you didn't know you were looking for.
