Subj: Year in review

District IX has a fiscal year beginning November 1 and because of Covid did not have a convention in 2020. The 2019-20 executive committee agreed to continue their positions through the 2020-21 fiscal year.

The year was different in that the clubs could not meet, and activities did not occur. However, three of the four EC members volunteered to be on the membership committee of GI. In addition to the president and 1<sup>st</sup> V.P. attending all BOG meetings by zoom.

Using emails, I was able to keep the clubs apprised of all the news from the BOG meetings and the membership committee meetings. Fortunately, the membership numbers held for the District compared to GI.

We are now 7 months into the current fiscal year and the clubs are starting to plan for meetings with their members. I have notified the clubs that I would like to be invited to a meeting soon. When I visit the clubs, I have awards to give out. The Fresno club has nominated two of its members for Award of Merit awards and the Long Beach club will receive a plaque recognizing their 75 years in existence.

The District IX convention is planned from October 21-24, 2021 in Jackson, California. In a recent poll I learned that our members would support a convention in October, so we are proceeding with our plans.

Mike Eisner

Governor

District IX
