

Gyro International 2nd Vice President

Annual Report: June 18, 2022

Has it been a year already? With all the work going on, Executive Council, Board of Governors, and task force it seems I have hardly been able to pick my head up and look around at the great year the team has had! Thank you to Blanton, Peter, Mike, Alan, and Matt.

The learning curve has been steep as I get to know more about International and the inner workings of Gyro. As we look to the future, the work we are doing today will directly impact the organization going forward and I am hopeful of our future possibilities.

My main task this year, and next, is the Gyro Structure Task Force. This cross-functional team has been meeting monthly and is hard at work on 3 main objectives for the overall structure of Gyro. We hope to make it more transparent and inviting for the members to engage with and understand, leading to an expansion of the membership.

I look forward to working with incoming President Peter Carter and continuing the work of Gyro.

So submitted,

Dan Durbin

2nd Vice President

Gyro International
