

Gyro International
Central District
Office of the District Governor

To the Gyro Officers and Members of the Central District Clubs

I would like to introduce myself in the newly established role of Central District Governor of Gyro International. The new Central District is an amalgamation of the previous Gyro Districts II, VII, and VIII. This position was created to serve as a liaison between Gyro International and clubs within a district while honoring the independence and uniqueness of each member club. The Governor, as a member of the Executive Council, is tasked with both providing guidance to clubs and advocating on behalf of clubs.

I am a member of the Gyro Club of Sherwood Park and am a Past District Governor of the legacy District VIII. My role is to serve as a resource, an advocate and a point of contact whenever your club wishes to engage with Gyro International or Central District in any activities. I recognize that each member club has their own style of operation and preferred level of involvement and it is not my intent to impose a strict set of rules or formality.

I propose to develop an open line of communication with all club executives in the district and conduct a club communication that will include all members in the district. Once we all return from our summer hiatus, I would like to invite club executives to join me in Zoom meetings to both relay any relevant information emanating from the Executive Council and to consolidate questions, positions, or concerns from the district.

I assure you that my role is supportive and I will not impose any obligations or restrictions on how clubs function. Instead, I will be available to assist when required, share information as appropriate, and faithfully represent our district within Gyro International. I encourage you to reach out for support, answer questions, or to simply stay connected.

I look forward to serving you in this role and supporting the continued friendship and comradery that define Gyro.

Yours in Gyro Friendship
Ted Ewanchuk
Governor, Central District
Gyro International
